EL Deletrista

Adrián Pérez

Barcelona, Spain

These new series *Escoda* × *EL Deletrista* are the perfect brushes for lettering, with a splint that allows you to clean the surplus material and make it durable; its hair is semi-rigid, making it perfect for precise and straight strokes.

Adrián Pérez was born in a family of tattoo artists. The passion for Letters was the main reason to start experimenting and playing with the materials, painting at home. After attending different lettering courses in Barcelona and San Francisco, he opened his handmade workshop in the neighborhood of Gracia (Barcelona). His journey in the lettering world began.
