CHRONOS

Escoda expands its vast offering of watercolor and acrylic brushes with a new brush combining 90% synthetic gold Toray fiber with 10% red sable hair.

A true first for Escoda to blend synthetic fiber with natural hair, this unification is the pleasant balance of strength and flexibility. The natural hair of the sable attains the necessary absorption of paint while the synthetic Toray fiber delivers good elasticity and resilience. This beautiful brush with its unique blend of fiber and hair also allows for an attractive price point.
